

REACH

16 July 2018

The EU REACH Regulation entered into force on 1 June 2007. Acerinox Group would like to inform you about our products and their status under REACH. Acerinox confirms that all stainless steel products supplied are articles and comply with REACH obligations.

Acerinox Group has studied the products and the substances contained in, and can confirm the compliance with the following chemical categories:

- Carcinogenic, mutagenic or toxic to reproduction, category 1.
- Persistent, bioaccumulative and toxic.
- Very Persistent and very bioaccumulative.
- Substances of Very High Concern included in the ECHA Candidate List in a concentration above 0.1% weight by weight (http://echa.europa.eu/chem_data/authorisation_process/candidate_list_table_en.asp)

Information about the safe use of products is available to our customers. All European stainless steel producers have developed a Safety Information Sheet, SIS. Acerinox communicates how stainless steel products can be used safely for humans and environment.

REACH is a continuous process and requires effective communication within the supply chain. Acerinox is dealing with REACH issues and to contact the REACH team email acxreach@acerinox.com

Yours faithfully,

Enrique Hernández-Penide.
Acerinox REACH Manager.
